**Section 2****Local Area 911 Implementation**

List all individual local areas covered by this report (e.g., Lee County, Virginia):

La Salle County, Illinois (FIPS Code 17099)

Putnam County, Illinois (FIPS Code 17155)

Stark County, Illinois (FIPS Code 17177)

For each area listed above, identify the emergency response point to which calls are now being routed.

La Salle County, Illinois –

All of the mobile calls captured on Illinois Valley Cellular’s cell sites in La Salle County are routed to one of four PSAPs in that county, certified by the Illinois Commerce Commission to receive basic 911 wireless calls (the Illinois State Police District 17 (La Salle, Illinois), the Mendota Police Department, the Ottawa Police Department and the Streator Police Department.) Illinois Valley Cellular RSA 2-I Partnership (“IVC 2-I”) currently operates ten cell sites in La Salle County, Illinois (Lake Holiday, Sheridan, La Salle, Marseilles, Oglesby, Ransom, Mendota, Downtown Mendota, Ottawa, and South Ottawa); an eleventh cell site (Peru) is expected to shortly become operational in La Salle County, Illinois. Illinois Valley Cellular RSA 2-II Partnership (“IVC 2-II”) has one tower in La Salle County, Illinois (Streator.) Calls that are picked up by the cell sites located at Lake Holiday, Sheridan, La Salle, Marseilles, Oglesby, and Ransom, are routed to the Illinois State Police District 17 (La Salle, Illinois). Calls captured by the Peru cell site will also be routed to the Illinois State Police District 17, when that cell site becomes operational. Calls that are picked up by the towers located at Mendota and Downtown Mendota are routed to the Mendota Police Department. Calls that are picked up by the towers located at Ottawa and South Ottawa are routed to the Ottawa Police Department. Calls that are picked up by the tower located at Streator are routed to the Streator Police Department.

Putnam County, Illinois -

No PSAP exists in Putnam County. Instead, the Illinois Commerce Commission certified the Marshall County Sheriff’s Office, the PSAP for Marshall County, as the appropriate PSAP to receive wireless basic 911 calls made in Putnam County, Illinois. IVC 2-I does not have a tower in Putnam County but its Bureau tower located in Bureau County, to the northwest of Putnam County, provides a signal in the northwest corner of Putnam County. Basic 911 calls that are established on the Bureau tower are routed to the Bureau County Sheriff’s Office, the PSAP for Bureau County. With the permission of the Illinois Commerce Commission, rather than forwarding the call to the Marshall County PSAP for eventual routing back to the Putnam County Sheriff’s Office, the Bureau County PSAP forwards the call directly to the Putnam County Sheriff’s Office. IVC 2-II has one tower in Putnam County (Magnolia). As directed by the Illinois Commerce Commission, calls that are picked up by the Magnolia tower are routed to the Marshall County PSAP, directly to the south of Putnam County. The Marshall County PSAP forwards the calls to the Putnam County Sheriff’s Office, or communicates with that emergency authority on behalf of the callers.

Stark County, Illinois -

No PSAP exists in Stark County. Instead, the Illinois Commerce Commission certified the Marshall County Sheriff’s Office, the Marshall County PSAP, as the appropriate PSAP to receive wireless basic 911 calls made in Stark County, Illinois. IVC 2-I does not have a tower in Stark County, but its Bradford tower located in Bureau County, to the northeast of Stark County, provides a signal in the northern part of Stark County. Basic 911 calls that are established on the Bradford tower are routed to the Bureau County Sheriff’s Office, the PSAP for Bureau County. With the permission of the Illinois Commerce Commission, rather than forwarding the call to the Marshall County PSAP for eventual routing back to the Stark County Sheriff’s Office, the Bureau County PSAP forwards the call directly to the Stark County Sheriff’s Office, or the appropriate local emergency authority in Stark County. IVC 2-II has one tower in Stark County (Wyoming). As directed by the Illinois Commerce Commission, calls that are picked up by the Wyoming tower are routed to the Marshall County PSAP, directly to the east of Stark County. The Marshall County PSAP forwards the calls to the Stark County Sheriff’s Office, or communicates with that emergency authority on behalf of the callers.

**Section 3****Certification - To be signed by an authorized representative of the reporting entity**

I certify that I am an authorized representative of the above-named reporting entity, that I have examined the foregoing report and to the best of my knowledge, information and belief, all statements of fact contained in this form are true and that the reporting entity has completed the steps necessary to properly route 911 emergency calls in the localities covered by the report as of September 11, 2002.
